AFTER SALES SERVICES

1. Free System Monitoring

Biotech offers free online system monitoring to all Clients round the clock to proactively solve any issue.

This is done using our state of the art installer software Which monitors all data during operational as well as non Operational hours.

2. Free Monthly Checkups

We also offer free monthly overall systems check –ups and servicing to our customer free of cost. Every month Our service team gets survey reports signed by clients.

This helps us and the client cater to any potential problem proactively and helps maintain full generation at all times.

3. Free Monthly Report

This is the most unique service that we offer to our clients on monthly basis. The report generated shows the actual power consumption from Solar/ Grid and the cost savings clients have obtained in the month.

We also attach Customer KE bill along with our monthly report so that customer view both and make comparison accordingly.
